U.S. DEPARTMENT OF Agriculture

GEO. S. JOSSELYN, FREDONIA, N. Y.

TO OUR CUSTOMERS:

We grow and offer the largest stock of Grape Vines in the World, and facilities for conducting this business EQUALED BY NO OTHER FIRM. Inspection of our stock, conveniences for doing this business, etc., will be conclusive to you that what we say is true. We commence packing in the Fall about October 1st. We store our Grape vines in Winter, in cellars, for Winter shipment by mail or express, or by freight after March 1st. No orders for less than \$5.00 sent C. O. D. WE DO NOT SUBSTITUTE. We guarantee safe arrival, in good condition, of vines and plants by mail.

Some nurserymen send small vines by mail and admit it. Many others mail small vines and don't admit it. The vines we send by mail are of our largest and very best, strictly first class in every respect. For those who mail small stock which is well known to the trade as "MAILING SIZE" about any small order would be profitable because the plants cost little and the postage on such plants is a small amount. We kindly remind our patrons that it does not pay us to sell our first class stock at prices herein in orders amounting to less than \$1.00.

Terms, CASH with order, by New York draft or post-office order, or express order on Fredonia, N. Y., which is also a foreign Money Order P. O. Registered letters at our risk. Please do not fail to plainly give name, Post Office, County, State, and when ordering, give shipping directions if you wish goods sent by special route. We will accept postage stamps, 1 and 2 cent, to the amount of \$5.00; other denominations to amount of \$1.00.

Please note that there is no charge for BOXING or PACKING anything on this list.

Each variety is carefully labeled, and packing done in the best manner.

Purchasers wishing plants sent C. O. D. will please enclose one-quarter the amount of bill with order.

Should any stock not prove true to name, we will either refund the purchase money for same, or replace with stock true to name free; and while we are exercising great care to prevent mixtures, the above is to be a condition on which all stock is delivered and we are not to be held liable for damages in addition to above amount.

We reserve the right, unless otherwise directed, to fill orders for one-year stock with two years stock of same size. Also orders for two-years stock, with one-year stock of size ordered.

Stock not priced in this list we cannot furnish this season.

If you wish a large quantity of stock and will send us a list stating kinds, quantities, age and grade required, we will send you special prices.

THE SAN JOSE SCALE

We have never had this pest on our grounds or premises. We believe the best way to manage this scale is to KEEP IT OUT and have used strenuous methods to accomplish this. We have observed that one easy way to acquire this scale is to exchange stock with "Tom, Dick and Harry" from anywhere and everywhere. We haven't made an exchange deal for stock in more than twenty years and don't propose to begin.

Certificate of Inspection of Nursery Stock

Every Consignment from us will be accompanied by a Certificate from our proper State Authorities stating it is free from all contagious disease or diseases or the San Jose Scale or other dangerously injurious pest or pests.

GRAPE-VINES

WE PREPAY MAIL OR EXPRESS CHARGES AT SINGLE OR TEN RATES.

Five or more of different varieties if desired at ten rates. Will furnish 50 or more of different varieties if desired at 100 rates.

WE DO NOT PAY EXPRESS OR FREIGHT CHARGES AT 100 RATES.

One-year No. 2 vines, 70 per cent. of the price of one-year No. 1. Two-years No. 1½ vines, half way between prices of two-years No. 1 and one-year No. 1. Three-years No. 1 (including CAMPBELL'S EARLY) one-half additional to the price of two-years.

It may not be generally known to our customers that there is not, never was and probably never will be any uniform standard for grading grape vines. So there is as much difference in size of No. 1 vines as there is in the men who offer them.

Although it is often stated that the originators of new fruits never get much benefit from their productions, it is safe to say here, that in this respect the success of Fay's Prolific is unparalleled, as up to this date I have paid to the heirs of the originator OVER FORTY TWO THOUSAND DOLLARS IN CASH as their share from my sales of Fay Currant plants. This is now the leading Currant, and its best recommendation is its enormous sale, constantly increasing. My stock of Fay's is and always has been propagated from wood from original stock on the Fay Farm. I sell more of them than all other varieties combined, although I try to grow what I can sell of all kinds.

NOTE-Comet (new)—Our stock was imported by us from England, where it is claimed to be superior to all other Red Currants and has received unanimous vote for Reward of Merit by Royal Horticultural Society of England.
